

RULE 18 - INSPECTION

Section 1. The Sanitary Engineer, his employees and designees and other authorized employees of the County, acting in their duly authorized capacity and bearing proper credentials and identification, shall be permitted to gain access to such properties and facilities as may be necessary for the purpose of inspection, observation, measurement, sampling, and testing in accordance with the provisions of these Rules.

Section 2. Denial of access, upon reasonable request, may be cause for disconnection from the public sewerage system.
