

ERIE COUNTY DEPARTMENT OF ENVIRONMENTAL SERVICES - SEWER RULES

ADOPTED JANUARY 13, 1992

AMENDED RESOLUTIONS:

RESOLUTION NO. 92-15

NO. 92-149, 96-353, 97-197, 99-265,

01-140, 01-191, 11-302, 11-347

RULE 5 - THIRD QUARTER SEWER CREDIT

Section 1. Residential customers receive monthly sewer bills for the second quarter of the year, due on the 17th day of May, June and July and the third quarter of the year, due on the 17th day of August, September and October each year, for the purpose of this sewer credit calculation. Residential Sewer customers will receive a sewer credit, not to exceed 300 cubic feet per month, calculated by subtracting the average monthly water use for the second quarter from the actual use each month of the third quarter, not to exceed a credit of 300 cubic feet each month. Customers without a full second quarter water consumption shall receive in their third quarter sewer bills due on the 17th day of August, September and October based on a not-to-exceed water consumption of 800 cubic feet per month. Should there be meter malfunctions during these months, estimates based on previous years water use or based on typical customer use will be used for the sewer credit calculation.

Section 2. Any customer who has a Non-Sewer Discharge Water Service or Sewer Deduct Meters will not receive a third quarter sewer credit.
